Volunteer position

Transport

About the role

P10 offers a few events/groups/meetings for youth that require items to be brought to us; specifically food. We try to offer free food at every event for youth taking place in the space. Our food is often provided by Midnight Kitchen at McGill or Peoples Potato at Concordia (thanks!!), and usually the food is in large containers. We need folks who can transport the food, or other items like clothing donations, to our space.

Main responsibilities

- Coordinating with p10 staff to pick up and drop of specific items.

Assets

- Having a car + license
- punctuality

Time commitment

We are asking for 3 months minimum commitment for this position and respect that someone cannot be available whenever we need them. We will communicate more about our schedule depending on available services with those interested.
